

3 – 6 December 2023, St.Gallen, Switzerland

European Colorectal Congress

www.colorectalsurgery.eu

DAVOSCOURSE@ECC – Sunday, 3 Dec

We offer hands on trainings for colorectal surgery together with the DavosCourse and the Surgical Skills Trainings Center at the Cantonal Hospital of St.Gallen:

BASIC COURSE:

- **Basic laparoscopic techniques and virtual reality training**
- **Open colorectal anastomotic techniques**

This course will focus on basic skills techniques in laparoscopic colorectal surgery, including virtual reality training as well as open anastomotic techniques.

This course addresses residents and surgeons starting laparoscopy and / or colorectal surgery.

ADVANCED COURSE:

- **Laparoscopic Colorectal Surgery**
- **Laparoscopic vessel handling and bleeding management**

This course will focus on advanced skills techniques in laparoscopic colorectal surgery, including vessel dissection and bleeding management training.

This course addresses surgeons who want to improve their skills or are experienced in open techniques already and want to switch to laparoscopic colorectal surgery.

ROBOTIC COURSE – Sunday, 3 Dec

This Course will include **lectures and hands on training on robotic platforms and simulators**. Focus will be on right side colon resections with intracorporal anastomosis, dissection techniques and for the first time robotic vessel and bleeding management on perfused organs.

This course addresses surgeons with at least some robotic experience.
