## PROCTOLOGY DAY – Sunday, 3 Dec

We want to focus on the **most important proctological clinical pictures:**  
„Do they need to be treated and if so, when and how?“

### ANAL FISSURE

**When to treat surgically?**

**Lateral internal sphincterotomy an option?**

**Fissurectomy and botox?**

**Flaps?**

**Treatment algorithmen.**

**What's acute – What's chronic?**

### OBSTRUCTED DEFECATION SYNDROME

**What do we do: STARR?**

**Mesh-Rectopexie or is there an alternative?**

**When conservative, when surgical treatment?**

### SEXUALLY TRANSMITTED DISEASE – ANAL INTRAEPITHELIAL DISEASE – ANAL CARCINOMA

**What is the connection of the three –**

**How do we diagnose –**

**How do we treat –**

**Is there a place for surgery?**

### THE DIFFICULT FISTULA: RECTOVAGINAL – CROHN'S – HIGH RECURRENT

**New techniques (LIFT, TROPIS, FILAC, PLUG...):**

**Hype or a really a good option?**

**Treatment algorithm.**

**Is there a place for stoma?**
