ROBOTICS COURSE – Saturday, 30th Nov 2024 - Sunday, 1st Dec 2024

The 1-day robotics course includes **lectures and robotics hands-on training training**. The focus will be on
- **right-sided colon resections with intracorporal anastomosis**
- **dissection techniques and robotic vessel and bleeding management on perfused organs**

This course is designed for surgeons with at least some robotic experience. **Please choose your participation for Saturday or Sunday.**

Instructing Faculty:

Danilo Miskovic, London, UK, Matthias Turina, Zurich, CH, Marcos Gómez Ruiz, Santander, ES, Anke Smits, Utrecht, NL, Jim Khan, Portsmouth, UK

Saturday, 30th Nov 2024

09.00

Opening Robotics Course

Danilo Miskovic, London, UK
Matthias Turina, Zurich, CH

09.40

Robotics Colorectal Surgery – Overview

Danilo Miskovic, London, UK

10.00

Hands on Training I

Participants will be rotating:

- **Intracorporal Anastomosis**
- **Simulator Training Anastomosis**
- **Dissection & Vascular Management / ICG**
- **Bleeding Management**
- **Video Training**

Individual Break during exercises

12.30

LUNCH

13.30

How to implement Robotics Colorectal Surgery

Marcos Gómez Ruiz, Santander, ES

14.00

Hands on Training II

Participants will be rotating:

- **Intracorporal Anastomosis**
- **Simulator Training Anastomosis**
- **Dissection & Vascular Management / ICG**
- **Bleeding Management**
- **Video Training**

Individual Break during exercises

17.10

Wrap Up

Danilo Miskovic, London, UK
Matthias Turina, Zurich, CH

Sunday, 1st Dec 2024

09.00

Opening Robotics Course
